Your Time and You. (SkillSoft course: ID: pd_01_a01_bs_enus)	Skillsoft Busy people do what is required, and rarely have the opportunity to stop and consider whether they are making the best use of their time. A brief analysis of what you do currently may surprise you, and it may help you to identify some changes that could be made. This course will help you to consider the activities that currently take up most of your time, and how you plan and log them. You will also be encouraged to consider the work-life balance to which you aspire, and what steps you could take to make this wish a reality. (Length: Approx. 3 hrs)	
Taking Control of Your Time (SkillSoft simulation: PD001A)	Skillsoft In this simulation, you play the role of an editor at a catalogue and on-line furniture company working to meet multiple deadlines. You will need to balance business and social responsibilities, and deal with various colleague personalities in order to meet your goals on time. (Length: Approx. 30 min)	
An Introduction to Memory Techniques	Web The tools in this section help you to improve your memory. They help you both to remember facts accurately and to remember the structure of information.	
Remembering a simple list of information - The link method and story method	Web ideal techniques and practice for a rep to take in a large amount of information, and to be able to summarise without having to ask the customer repeat questions thus improving the customers experience
